

OPTION FOR SLIDING DOOR

Louver (mound-shaped)

Allows ventilation while providing privacy and shade.

Stainless base plate

For extra protection for lower portion of the door.

Window frame

Available window frame thicknesses are 3t, 4t, 5t and 6.8t.

Lock indicator

UNIFLOW'S original design, with more visible characters and a window.

Sloping cover

The upper part is inclined and thus it prevents dust from being collected and easy to clean.

Color vinyl sheet

Various color variations are available to choose to fit in with interior.

Door head rubber cushion A

Designed to touch the door frame directly, avoiding a need for a door stop frame.

Geared brake

Controlled hydraulic geared brake allows smooth and steady door opening and closing.

Window materials

Acrylic window (transparent window, transparent two layers of window, one-way mirror), Meshed glass and Bleared window are available.

Acrylic window (one-way mirror)

Meshed glass

Acrylic window (smoked)

Surface material

Aluminium

Stainless steel plate

Colored steel plate (Ivory)

Colored steel plate (White)
