

Smart Swing

UNIFLOW

Swing door, with a focus on design,
is safe and easy to use.
Available in a variety of colors
to suit every situation.

Features

The Swing Door fits well to different scenes.

- store · restaurant · beauty salon · office · hospital & etc -

- The smart design with no hinge and grip.
- A color can be selected from a plenty of sheet variation which enables to make various representation at the door opening.
- Fusion of the function and design, with the acrylic vertical window in entire span and the aluminum pole.

We are particular about the safety as well as the design.

- the door can be used safely even at a site where children go in and out frequently -
- You can see the other side of the door through the window, so you can check the safety before opening it.
- Acrylic material is used for the window. It is hard to be scratched and no need to concern about breakage like glass.
- Fitted cushion gaskets into the door edges, both in open side and frame side, to prevent fingers from getting catch in gaps between the door and frame.

The Smart Swing Door remains the feeling of comfortable use and the stable quality.

- because it succeeds the construction of UNIFLOW Swing Door that has the achievement in more than 40 years -

- This swing door opens with a light touch only and closes automatically.
- Simple construction and maintenance free.
